GENERAL REMARKS

We have pleasure in presenting this list of plants, etc., and avail ourselves of the opportunity to thank our many customers for the support accorded us during past years, and will do our utmost to merit a continuance of their favour and recommendation.

Locality.—The Nursery is situated at 27 Mitchell Street, Enfield, and only 7 miles from the G.P.O. Sydney.

Packing.—This receives our particular attention, the charges being made as low as possible, cases and material only are charged for.

Unknown correspondents are kindly requested to remit their orders, or to mail a satisfactory reference. Ordinary payments may be made by crossed Cheque, Bank Draft, or Post Office Order, the latter payable at Enfield. And for small amounts Postal Notes or stamps should be remitted.

It is also very desirable that small orders should be accompanied by a remittance, as the extra postage incurred in rendering accounts and acknowledging small amounts is a serious and unnecessary charge.

Terms of Sale.—We believe that all trees and plants sold by us are of the description and kind specified at the time of sale. Where reasonable proof is given that plants have been wrongly labelled we will refund the original purchase money or correct the mistake by new plants; but we give no warranty, expressed or implied, as to their growth, description, quality, or productiveness, and will not be in any way responsible for the crop, as these factors are governed by forces beyond our control.

All sales are made subject to these conditions, and if the purchaser does not accept the goods sold on these terms they are at once to be returned.

Everything is sold subject to shortage or failure of crop or other causes beyond control.

Complaints.—These must be made within fourteen days of receipt of goods, otherwise they cannot be entertained.

OUR SEEDLING DEPARTMENT

We supply seedlings, in small or large quantities, of all the well-known hardy annuals and perennials, as well as vegetables. They are raised from the best seed procurable. Every seedling is sown and grown in the **open ground**, and under the hardest conditions, and carry a strong system of fibrous roots.

NOTICE

For the ordinary climate all the above seedlings will be found suitable for planting during the periods stated but, in the case of extreme climatic conditions, allowance must be made for the effect of frost and cold weather on the more tender plants.

Seedlings or other nursery stock cannot be despatched on the same day as the order is received. We must have at least a day's notice.

As far as possible, we try to avoid despatching seedlings on Fridays and Saturdays owing to the liability of parcels lying in the post office over the week-end.

NOTICE TO VISITORS

HOW TO GET TO ENFIELD NURSERIES

From Sydney by Train

Take Train to Burwood, and catch Tram to Ashfield, alighting at Stanley Street, which is at rear of Nursery.

By Motor from Sydney

Travel along Liverpool Road to New Royal Sheaf Hotel, turn left down Burwood Road, and take third on right which is Mitchell Street.

Trees and Shrubs

ORNAMENTAL AND FLOWERING

As these Evergreen Shrubs and Trees are mainly grown in Pots, the majority of them can be readily transplanted almost any time during the year. Autumn, Winter and early Spring are the best periods, particularly with the Conifers (Cypress, Junipers, etc.). Plant them firmly and water well.

DECIDUOUS TREES AND SHRUBS

During their dormant period (i.e., Winter), when risk of loss in transport or planting is practically negligible, prepare ground thoroughly and plant firmly.

("E" indicates Evergreen, "D" Deciduous. The number following indicates the approximate height in feet of the tree.)

You can visit the Nursery and make your own selection
